PROFESSIONAL SUMMARY

Technical consultant with over 7 years of experience bridging the gap between security compliance and operational implementation. At Deloitte, I specialized in helping high profile clients, including Meta and federal agencies, navigating complex Governance, Risk and Compliance frameworks without slowing down delivery.

I prove my technical depth through a live, custom-built portfolio website and active GitHub repository. By showcasing a diverse range of projects, including interactive Power BI executive dashboards, automated security pipelines, live HTML feedback surveys, and clear presentation decks. I demonstrate my ability to execute complex technical work and communicate the results to executive teams.

SKILLS

- **Governance, Risk & Compliance (GRC):** Risk Assessments, Incident Response (GDPR), FTC Compliance, Data Privacy, NIST Frameworks, Vulnerability Management
- **Security Control Implementation:** Workflow optimization, Personnel Security Screening, Access Management, SOP Creation
- **Stakeholder Risk Advisory:** Vendor Risk Management, Cross-Functional Alignment, Executive Reporting, Security Awareness
- **Technical Tools & Platforms:** ServiceNow (ITSM), Oracle Cloud, Splunk, SaaS GRC Platforms, Power BI, Advanced Excel, Microsoft/Google Suites
- **Incident Triage & Collaboration:** Slack (Automated Workflows), Microsoft Teams, Zoom (Cross-Functional Facilitation & Executive Presentations)

WORK EXPERIENCE

Independent Work | Implementation & Analytics Consultant

05/2025 – Current

- [Cyber Attack Financial Impact Dashboard](#) – Designed an executive Power BI dashboard analyzing cyber-attack financial impacts using Kaggle threat datasets.
- [GlobalMed Privacy & Compliance Architecture](#) – Architected privacy and compliance frameworks for a healthcare environment to ensure strict regulatory alignment.
- [Florida Public-Sector NIST Compliance Review](#) – Conducted a targeted NIST compliance review for the Florida public sector, delivering risk remediation roadmaps.
- Automated SaaS Incident Pipeline – Engineered two privacy-compliant survey frameworks integrated with Zapier to route real-time user telemetry into Slack.
- GenAI NIST Compliance Auditing Tool – Developed a Python and Generative AI tool to automatically evaluate operational evidence against NIST frameworks.
- [GRC IAM & RBAC Matrix](#) – Developed comprehensive IAM matrix to enforce Role-Based Access Control and Principle of Least Privilege compliance.

Deloitte Consulting | Solution Specialist

09/2020 – 05/2025

Solution Specialist – Veteran Health Administration (VHA Client)

Remote

- Secured a new six-month contract extension by fixing operational chaos across the Oncology screening program.
- Partnered with government stakeholders on the Lean Portfolio Management team to stabilize five Agile team workflows.
- Designed a custom SharePoint website to ensure immediate access to critical oncology project compliance deliverables.
- Established standardized folder naming conventions across the project ecosystem to eliminate document retrieval errors.

Project Consultant – Defense Manpower Data Center (DMDC Client)

Remote

- Managed the security onboarding process for 150 contract consultants by implementing strict ServiceNow ticketing systems.
- Rewrote detailed standard operating procedures for complex government intake forms to prevent costly onboarding restarts.
- Partnered with government stakeholders to accelerate final clearance approvals by enforcing strict service level agreements.
- Created comprehensive weekly presentation decks to keep executive teams aligned on critical project milestones.

Privacy Program Manager – (META Client)

Remote

- Managed ten to fifteen concurrent privacy incidents by driving root cause analysis through to final resolution.
- Translated complex technical root cause data into clear legal presentations to prevent regulatory compliance fines.
- Successfully resolved four highly complex privacy incidents by accurately quantifying the exact number of affected users.
- Coordinated directly with internal engineering teams to ensure technical operations followed strict privacy compliance rules

Project Manager – Deloitte's Data Marketplace Platform

Remote

- Acted as the sole platform manager, processing all data procurement invoices to generate \$3M in revenue.
- Streamlined complex vendor relationships to ensure highly seamless data procurement operations of the platform.
- Coordinated with Deloitte Risk to guide clients through independence requirements and ongoing compliance.
- Partnered with global member firms to utilize the trusted vendors for their specific data procurement needs.

First Citizens Bank | Client Operations Specialist

01/2020 – 09/2020

- Resolved 600+ commercial vehicle title issues, coordinating complex resolution with DMV and external legal teams efficiently.
- Managed end-to-end title processing for a high-volume portfolio, resolving complex lien and ownership transfer issues.
- Achieved client satisfaction through the timely, accurate, and compliant processing of high-volume file workflows.
- Designed and implemented pandemic continuity protocols ensuring uninterrupted title operations and essential client service.

TD Bank| Auto Collections Specialist

05/2016– 12/2018

- Managed 200+ delinquent auto loan accounts, recovering \$25K monthly through strategic negotiation and compliance.
- Analyzed debtor financial capacity to create tailored collection strategies that significantly increased recovery performance.
- Negotiated compliant repayment agreements, achieving 100% FDCPA adherence and maximizing recovery rates.
- Delivered empathetic customer service while aggressively pursuing recovery goals and maintaining perfect compliance.
