ServiceNow | Jira | Power BI | Power Query | DAX | Microsoft 365 | SharePoint | Microsoft Azure | Microsoft Entra ID | SQL Server | Python | Role-Based Access Control (RBAC) | GitHub | AI-Assisted Automation | Slack

## PROFESSIONAL EXPERIENCE

### TECHNICAL SUPPORT ADVISOR | VXi Global Solutions

Jacksonville, FL | Remote | May 2026 - Present

Provide high-volume technical support to customers of a Fortune 10 global technology company.

- Troubleshoot hardware, software, account, connectivity, and device issues, guiding enterprise and consumer customers through clear, step-by-step resolutions.
- Achieve an 82% issue resolution rate, exceeding the 75% team benchmark by 7 percentage points through efficient diagnosis and case resolution.
- Manage customer issues through resolution or escalation, documenting troubleshooting steps and unresolved dependencies to support effective handoffs.
- Adapt to evolving products, systems, policies, and support procedures; explain technical concepts to customers with varying levels of technical knowledge.

### SOLUTION SPECIALIST | Deloitte

Jacksonville, FL | Remote | September 2020 - May 2025

Coordinated federal and enterprise engagements spanning program delivery, privacy, risk, reporting, and stakeholder management.

### Veterans Health Administration (VHA) | Oncology Modernization

- Partnered with the Release Train Engineer on Jira sprint planning across five Agile teams, organizing issues, tracking work items, and maintaining sprint readiness.
- Supported Lean Portfolio activities across five Agile teams, improving executive visibility through standardized reporting, organized SharePoint resources, and deliverable tracking.
- Updated training materials and program documentation to support platform readiness, stakeholder communication, and consistent portfolio delivery.

### Defense Manpower Data Center (DMDC)

- Led team onboarding for an Elastic platform upgrade, creating a centralized tracker for required steps, access needs, completion status, and outstanding actions.
- Coordinated access requests in ServiceNow with project and team leads, resolving dependencies and securing required onboarding approvals.
- Prepared executive status presentations for four teams, consolidating milestones, risks, blockers, dependencies, and progress updates.

## **SOLUTION SPECIALIST | Deloitte (continued)**

### **Meta**

- Triaged privacy incidents across three pod teams, using internal tools to assess severity and route cases to the appropriate investigative owners.
- Led reviews of privacy incidents involving access control failures, data loss, retention and deletion issues, product launches, and other events requiring cross-functional investigation.
- Presented incident cases to GDPR attorneys and partnered with Meta legal teams to track remediation actions, owners, and progress through closure.

### **DataVault | Deloitte Internal Data Marketplace**

- Led access provisioning for third-party vendors and global Deloitte firms, managing permissions for dataset and platform material uploads while maintaining appropriate access controls.
- Partnered with Deloitte practitioners and Third-Party Risk Management to manage the data procurement lifecycle, contributing to approximately \$3 million in data sales.
- Developed marketing and training materials to promote the platform, explain available data offerings, and simplify marketplace access.

### **Additional Deloitte Engagements**

- Mentored professionals in Deloitte's strategy practice, providing career guidance, knowledge sharing, and onboarding support; helped colleagues navigate internal resources and project opportunities.
- Coordinated project activities and deliverables for a federal Chief Data Officer council engagement supporting cross-agency data and governance initiatives.

## **CLIENT OPERATIONS SPECIALIST | First Citizens Bank**

Jacksonville, FL | January 2020 - September 2020

- Resolved more than 600 commercial title issues by researching account documentation, coordinating corrective actions, and maintaining accurate records of customer and third-party interactions.
- Addressed documentation gaps and aligned title and lien requirements with applicable state motor vehicle processes.

## **AUTO COLLECTIONS SPECIALIST | TD Bank**

Jacksonville, FL | May 2016 - December 2018

- Managed inbound and outbound customer conversations about past-due accounts, payment options, account status, and resolution pathways.
- Recovered approximately \$25,000 per month while following consumer financial protection requirements and maintaining professional customer relationships.

## **PROJECTS**

### **Cybersecurity Vulnerability Risk Intelligence Dashboard | Power BI**

- Built an interactive dashboard integrating multiple public data sources using Power BI, Power Query, and DAX to identify high-priority risks and guide remediation efforts.

### **Security & Privacy Incident Triage Simulator**

- Built an interactive simulator with 10 security and privacy scenarios, severity criteria, escalation paths, and response guidance to demonstrate structured incident decision-making.

### **Hospital Financial Exposure Dashboard | Power BI**

- Built a Power BI dashboard using DAX to analyze admissions, visit costs, and insurance coverage, highlighting trends and potential financial exposure.

### **Enterprise IAM Access Provisioning & RBAC**

- Built an access provisioning simulator and RBAC matrix for internal, global, and third-party users, applying least privilege, data sovereignty, and segregation of duties principles.

## **EDUCATION**

**M.S., Information Technology, Cybersecurity Management** | Florida Institute of Technology | 2020

**MBA, Business Management** | Florida Atlantic University | 2019

**B.S., Legal Studies** | University of Central Florida | 2013
